

United States Senate

April 4, 2023

The Honorable Patty Murray
Chair
Committee on Appropriations
United States Senate
Washington, DC 20510

The Honorable Susan Collins
Vice Chair
Committee on Appropriations
United States Senate
Washington, DC 20510

Dear Chair and Vice Chair:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2024 Interior, Environment, and Related Agencies Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

A handwritten signature in blue ink, reading "Dianne Feinstein".

Dianne Feinstein
United States Senator

**Feinstein, Dianne(D-CA) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Mojave Water Agency	Funds would be used for construction to add a new traveling screen facility at the start of the Mojave River Pipeline to screen and filter out moss and debris and add a new pilot recharge basin in the upper portion of the Alto subarea, a critical groundwater resource for the region.	Apple Valley CA	\$1,000
West Valley Water District	Funds would be used to construct 4,400 linear feet of 8-inch and 4,000 linear feet of 24-inch diameter of new water pipeline.	Bloomington CA	\$2,000
Borrego Water District	Funds would be used for construction and labor to accelerate replacement of gaining water infrastructure.	Borrego Springs CA	\$2,600
County of Butte	Funds would be used for roadside fuels reduction efforts along many miles of county arterial and collector roads and other high-priority roadways to improve fire resiliency and fire breaks throughout high-fire severity zones in Butte County.	Butte County CA	\$3,000
Coachella Valley Water District	Funds would be used for construction to reduce flooding to approximately 8,000 acres downstream and provide improved flooding protection to the lives and property of Thousand Palms.	Cathedral City CA	\$2,000
City of Commerce	Funds would be used for the construction, development and testing of one potable water supply well.	Commerce CA	\$2,500
City of Compton	Funds would be used to replace and repair failing sewer lines serving the community.	Compton CA	\$2,000
Georgetown Divide Public Utility District	Funds would be used for construction of a 2 million gallon storage tank adjacent to the water treatment facilities. This tank will provide additional water supply reliability to customers and allow the District to meet current and future needs.	Cool CA	\$1,500
Fallbrook Public Utility District	Funds would be used for construction to replace a primary 80-yr-old 9K ft pipeline.	Fallbrook CA	\$3,040
Sonoma County Water Agency	Funds would be used at the Russian River County Sanitation District's treatment plant to increase its sustainable treatment capacity during flood events.	Guerneville CA	\$1,500
County of Inyo	Funds would be used to create new septage ponds in Inyo County, which will service the liquid waste of both Inyo and Mono Counties.	Independence CA	\$800
Valley Sanitary District	Funds would be used to complete the studies, reports, and construction documents necessary to expand and upgrade the WWTF to accommodate Title 22 tertiary treatment for groundwater recharge.	Indio CA	\$1,000
Resource Conservation District of Tehama County	Funds would be used for the NEPA study for the Ishi Wilderness Fire Restoration Project in order to proceed with the next phase of forest health and fuels reduction projects.	Ishi Wilderness CA	\$584
Stallion Springs Community Services District	Funds would be used for construction of a new drinking water blending tank that will reduce contaminant concentration from water wells that serve more than 3,000 residents.	Kern County CA	\$3,000
North Tahoe Public Utility District	Funds would be used to replace undersized water pipes and install new hydrants to create fire-resilient communities in Lake Tahoe.	Kings Beach CA	\$2,242

Water Replenishment District of Southern California	Funds would be used for construction to treat water wells for PFAS contamination.	Lakewood CA	\$2,500
City of Lindsay	Funds would be used for construction of a pipeline replacement, surface water, and new water well projects.	Lindsay CA	\$1,750
County of Los Angeles	Funds would be used for studies for a resilient water supply, mitigate potential shortages of imported drinking water supplies, and deliver safe reliable drinking water.	Los Angeles County CA	\$500
Marin Municipal Water District	Funds would be used to upgrade aging water meters with new automated meter infrastructure, which decreases water leaks, and reduces service outages for customers.	Marin City CA	\$1,200
Central Contra Costa Sanitary District	Funds would be used for construction for Solids Handling Facility improvements addressing infrastructure, sustainability, & regulatory issues.	Martinez CA	\$2,000
City of Maywood	Funds would be used for construction to upgrade and increase system resilience, reliability, and operational functionality and address public health concerns.	Maywood CA	\$2,000
City of Modesto	Funds would be used for construction to strengthen and replace old, undersized steel mains that are prone to leaking and low pressure.	Modesto CA	\$1,400
County of Monterey	Funds would be used to construct a new water pipeline to address ongoing water quality problems for the community of San Lucas.	Monterey County CA	\$2,000
Napa Communities Firewise Foundation	Funding would be used for the creation of priority fire fuel reduction buffers to protect the critical infrastructure of the Adventist Health Hospital and the Pacific Union College campus. In addition, key access and evacuation routes will be improved for residents and first responders.	Napa County CA	\$1,750
County of Nevada	Funds would support post-winter storm vegetation abatement on critical evacuation routes across the county.	Nevada County CA	\$750
Novato Sanitary District	Funds would be used for the construction of the self-generated biogas utilization with cogeneration facility, and upgrade existing electrical equipment for improved energy efficiency.	Novato CA	\$1,100
City of Oakland	Funds would be used for a habitation and ecosystem project to develop and implement strategies to control excessive algae growth and low dissolved oxygen concentrations in Lake Merritt to ensure aquatic wildlife survival, ecosystem balance and compliance with state and federal regulations.	Oakland CA	\$1,000
City of Oakley	Funds would be used for construction to upgrade its storm drain system near the downtown hub of residential growth and economic development.	Oakley CA	\$2,000
City of Oceanside	Funds would be used for construction to provide source water for water reuse, increase resiliency, sustainability, and reduce imported water to the City and discharged secondary effluent to the Pacific Ocean.	Oceanside CA	\$5,000
Town of Paradise	Funds will be used for the Connection Payment from the Town of Paradise to the City of Chico for the capacity of their Water Pollution Control Plant (464,000 gallons per day of wastewater).	Paradise CA	\$7,500
City of Rancho Cucamonga	Funds would be used to purchase land surrounding Cucamonga Canyon Trail for conservation.	Rancho Cucamonga CA	\$2,000
Port of Redwood City	Funds would be used for construction to upgrade stormwater infrastructure at the Port of Redwood City.	Redwood City CA	\$700
U.S. Forest Service	Funds would be used for the U.S. Forest Service to purchase Moon Camp in the San Bernardino National Forest.	San Bernardino National Forest CA	\$10,000

City of San Diego	Funds would be used to construct a Demonstration Central Area Small Scale Facility to demonstrate compliance and efficacy of recycled water requirements.	San Diego CA	\$5,000
County of San Diego	Funds would be used for materials, labor, design, and fuel reduction to conduct assessment of wildfire vulnerability needs of County and State fire facilities in San Diego County.	San Diego County CA	\$1,500
City of Santa Cruz	Funds would be used to replace approximately 2,600 LF of the Newell Creek Pipeline located within a steep hillside off Brackney Road in rural Ben Lomond and relocates the pipeline within geologically stable ground for both landslide and earthquake protection.	Santa Cruz CA	\$1,000
City of Santa Maria	Funds would be used for the Santa Maria Storm Drainage Improvement Project that will protect the community from the worst impacts of rainfall induced flooding.	Santa Maria CA	\$2,000
City of Santa Paula	Funds would be used for construction materials to replace two water tanks ensuring reliability in standard and emergency scenarios.	Santa Paula CA	\$1,500
Sonoma County Water Agency	Funds would be used to conduct design, CEQA, and right-of-way acquisition for the 12kV Wohler-Mirabel overhead electrical distribution system as part of their water supply system local hazard mitigation strategy.	Santa Rosa CA	\$1,000
County of Placer	Funds would be used to increase resiliency and reliability for two 50 plus year old drinking water well sites.	Sheridan CA	\$1,000
Solano Irrigation District	Funds would be used for the construction of two existing Public Water Systems (PWS) to facilitate connection of existing homes that currently use point-of-entry treatment and bottled water for drinking because their existing supply doesn't meet California's drinking water standards.	Solano County CA	\$1,200
South Tahoe Public Utility District	Funds would be used for construction of the Pioneer Trail Waterline Project that will enhance the resilience of critical water infrastructure through improving water quality, increasing service, and enhancing fire protection.	South Lake Tahoe CA	\$2,200
U.S. Fish and Wildlife Service	Funds would be used for maintaining more than 70 miles of levees and 55 water control structures, which serves as flood protection for the shoreline of three highly urbanized counties in Silicon Valley.	South San Francisco Bay CA	\$1,200
County of San Joaquin	Funds would be used for construction and equipment to replace aging, leaky steel pipes which require frequent repairs.	Stockton CA	\$2,300
County of Tulare	Funds would be used to complete the next phase of planning (engineering design, permitting, and environmental review) for a new sewer collection system and wastewater treatment facility for the community of Allensworth.	Tulare County CA	\$1,400
City of Turlock	Funds would be used for the replacement and upsizing of over 1,120 feet of pipe in Turlock in order to create a positive drainage system and alleviate serious flooding in the City.	Turlock CA	\$1,000
City of Twentynine Palms	Funds would be used for a septic to sewer conversion project for the long-term health of the groundwater basin and to reuse critical water supplies in the desert.	Twentynine Palms CA	\$2,000
